January 23, 2020
January 30, 2020
February 6, 2020
February 13, 2020

Please, join!

Workbooks provided at no charge.

Jackson Elementary is proud to announce we will be hosting a 5-week program entitled Parenting The Love & Logic Way. This course will be absolutely FREE to any interested family. Raise happy and well-behaved kids with positive, loving tools. The Love and Logic approach to parenting is built around the science of crafting caring and respectful relationships. An authentic, loving connection between parents and their children is the root of a healthy, thriving relationship built on trust and understanding. Sounds easy enough, but never before in history have parents been faced with so many challenges! The Love and Logic approach provides a variety of simple and effective strategies for parenting children from birth to adulthood. Whether you are embarking for the first time with your new baby or navigating the turbulent teens with your youngest, these strategies and techniques will help you create calm and loving solutions.

Learn how to:
- Get your kids out the door on time
- Stop bickering and fighting between siblings
- Deal with backtalk, whining, and arguing
- Deliver time-out in an effective way
- Give logical consequences
- Deliver enforceable statements rather than empty words
- Give your child healthy control
- Implement chores in your home
- And...much more!

One-Liners: “I love you too much to argue.”; “Nice Try.”
“What did I say?”; “I know.”; “I argue at 6:30am on Saturdays.”

Please return the lower portion of this page to Jackson to register your attendance and help us in preparing.
